

GLOBAL LUXURY WINNERS REPORT 2022

BEST LUXURY MEDIA IN THE WORLD

A woman with long brown hair, wearing a white coat, is seated and reading a magazine. Her hands are visible, holding the pages. The background is softly blurred, showing what appears to be a white chair or sofa. The overall lighting is bright and clean, creating a professional and sophisticated atmosphere.

The glittering and alluring world of luxury is where perfection, beauty, and an uncompromising approach to quality reign supreme. It is a world where successful and wealthy people create products and services for the most demanding customers and take great care of their reputation. You will often find superlatives in reviews of such products and services, and they will be fully justified because they say about the best the industry has to offer.

The world of luxury is diverse and rich in news, with new brands being born and new game-changing products emerging. The Luxury Lifestyle Awards team is excited and proud to present the result of a meticulous lengthy work: the TOP 50 most reliable and trustworthy luxury media that will always help you to find the true gems of upscale living.

An in-depth study of the luxury media market, conducted by LLA experts, covered a wide range of media covering the topic of opulent lifestyle and everything related to it. Among the nominees were both narrowly focused outlets that specialize in one topic and media devoted to a wide range of topics and targeted at a wide audience.

The Luxury Lifestyle Awards team's in-depth knowledge and years of industry experience have allowed them to evaluate coverage of such topics as high-end real estate, interior design, hospitality, travel, destinations, restaurants, culinary, cars, yachts, spirits, jewelry, watches, fashion, and other attributes of luxury living in various media. The research into the world's best luxury media required a careful examination of a vast number of media resources and their evaluation according to a number of criteria, including the reliability of published information, readership, audience coverage, design, customization of articles, quality of printing, circulation, publication geography, social media of each brand, marketing procedure, and feedback from clients.
