

GLOBAL LUXURY WINNERS REPORT 2023

BEST LUXURY MEDIA IN THE WORLD

Welcome to Luxury Lifestyle Awards!

Luxury Lifestyle Awards is a global award selecting, recognizing, celebrating and promoting the best luxury goods and services all over the world.

Our goal is to connect people with the best of luxury. We evaluated more than 5 000 goods and services in 400 categories from 120 regions, and analysed the results to give you a TOP list of the best of the best in the world!

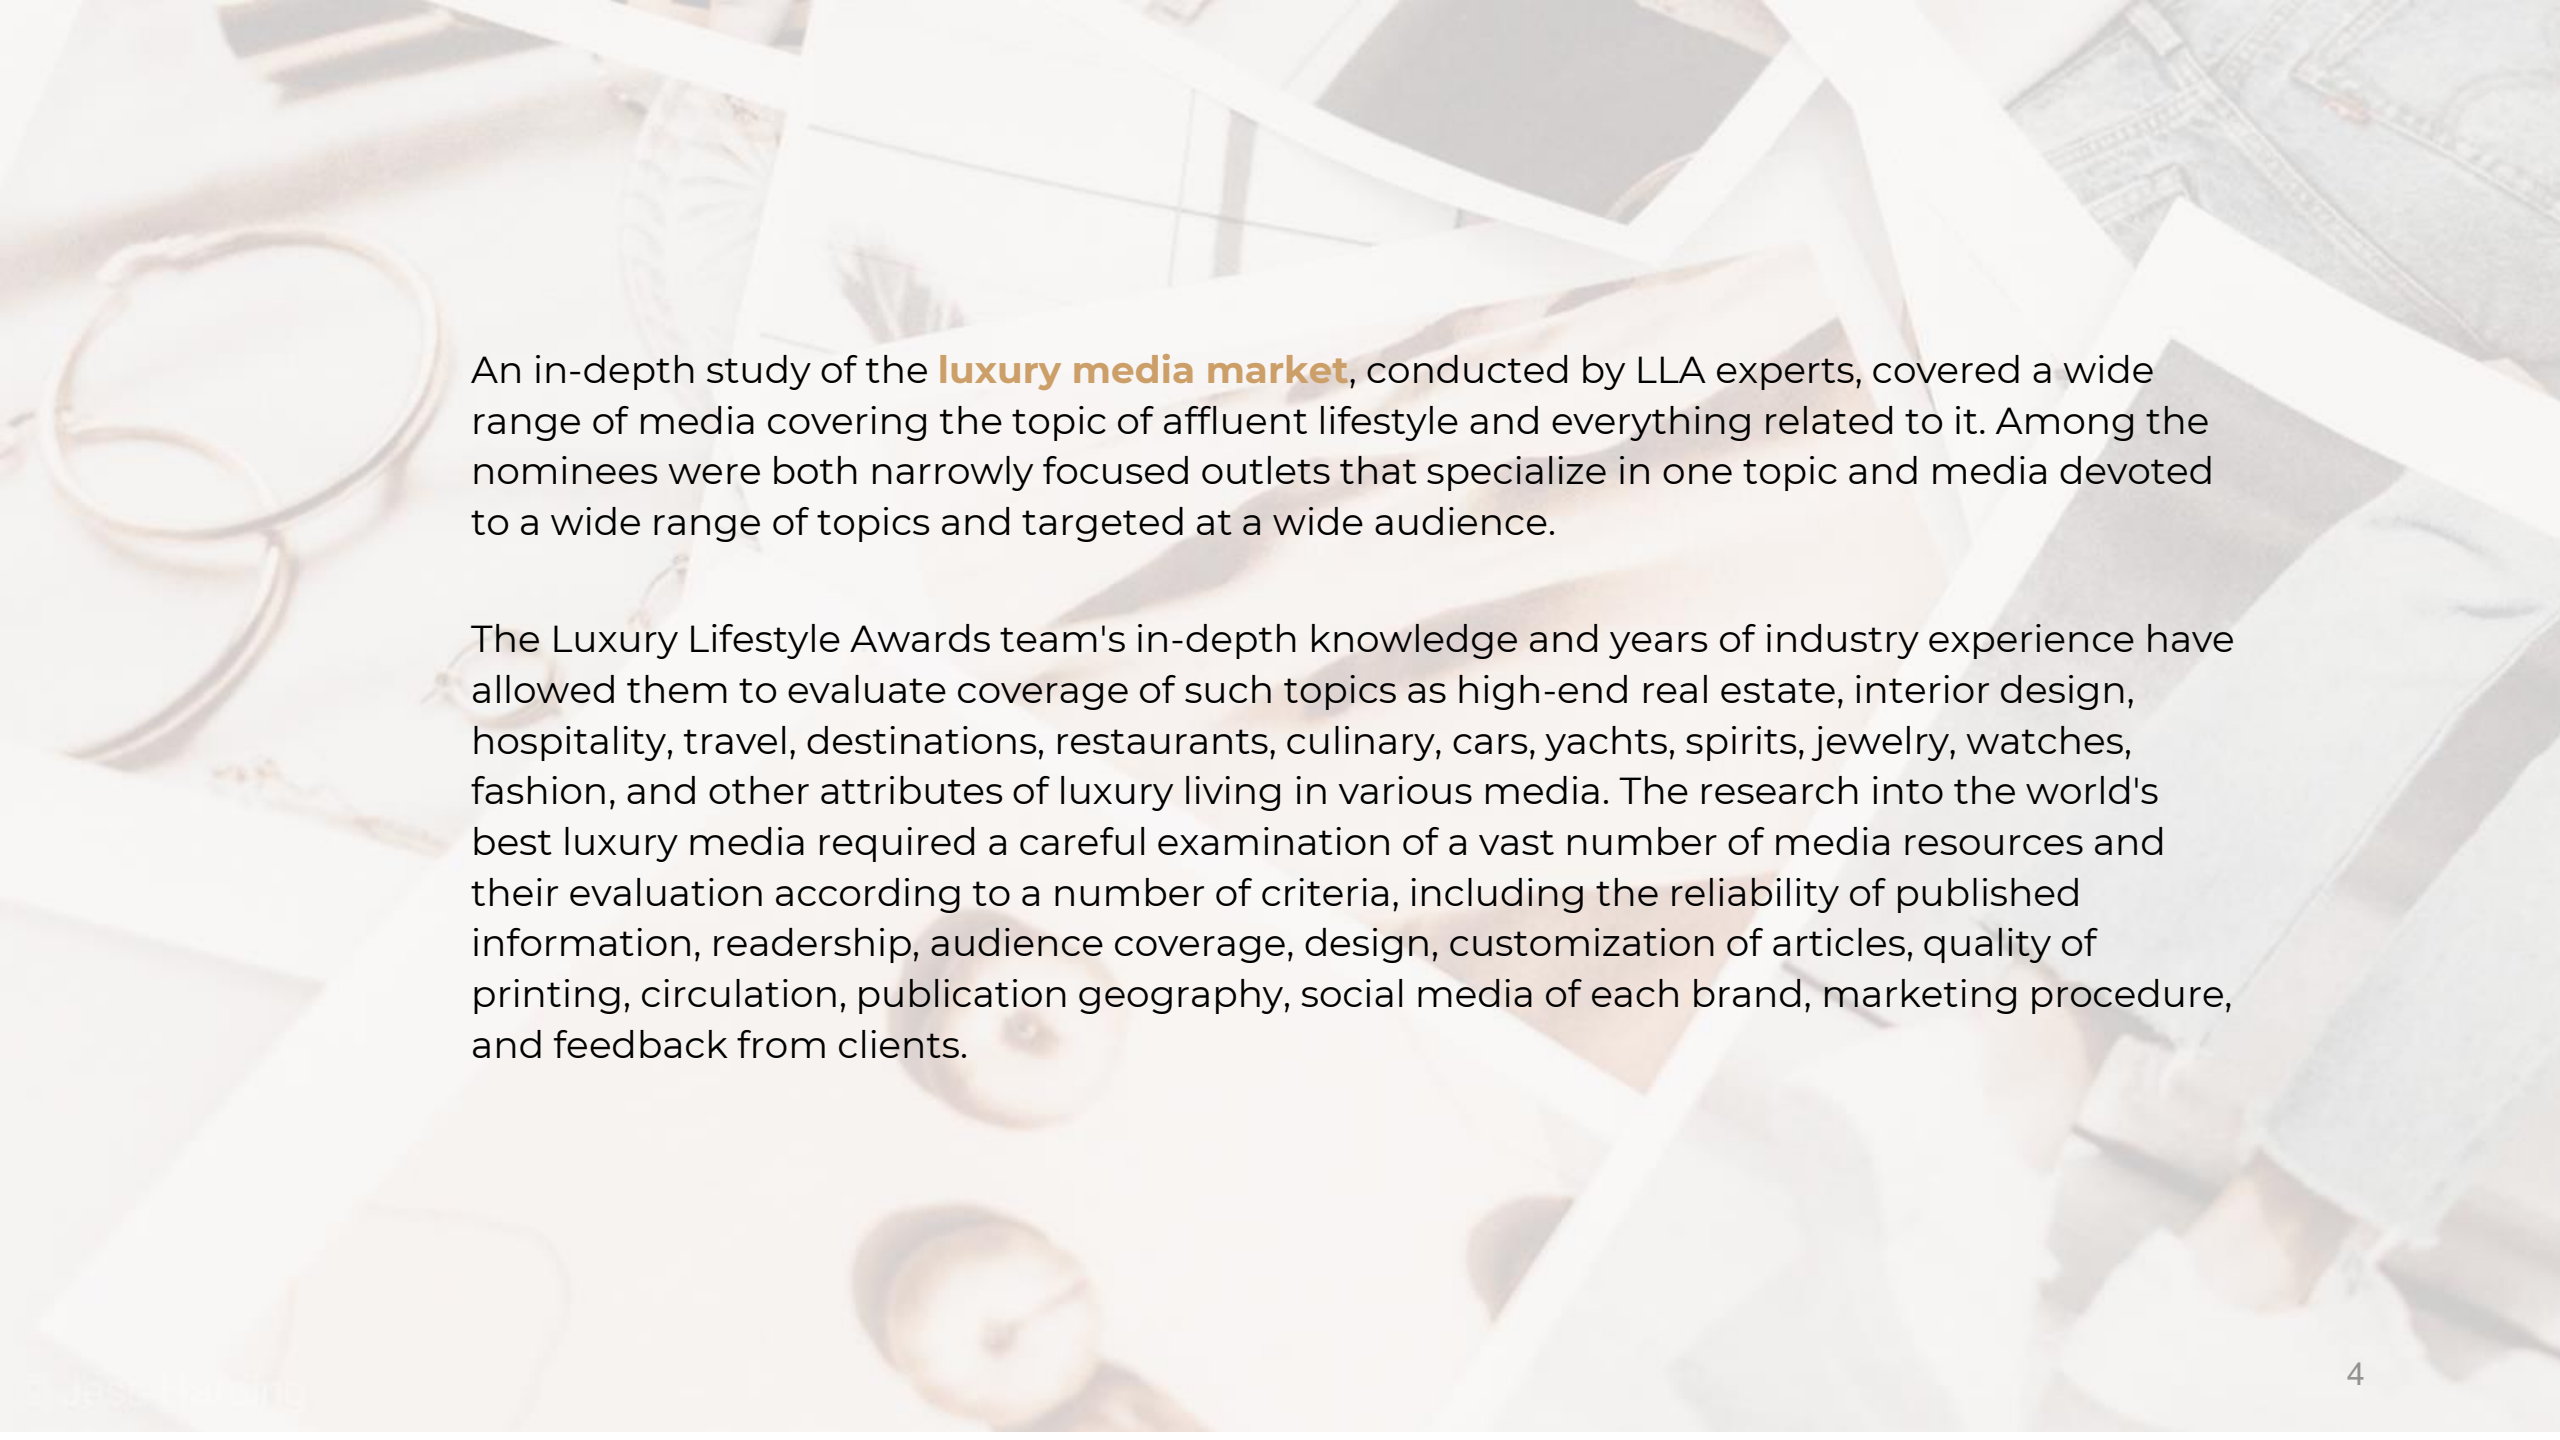

Each of our winners is determined by thorough category based research.

The **luxury industry** is in constant evolution, delivering exclusive products and services of exceptional quality to the most discerning audiences.

Media coverage of the various sectors of the industry is also an art that requires deep involvement, a high degree of professionalism, and a perfect understanding of the brands and the needs of the audience.

Leading media resources offer the most effective tools for premium advertising campaigns that target high-net-worth individuals and affluent consumers.

An in-depth study of the **luxury media market**, conducted by LLA experts, covered a wide range of media covering the topic of affluent lifestyle and everything related to it. Among the nominees were both narrowly focused outlets that specialize in one topic and media devoted to a wide range of topics and targeted at a wide audience.

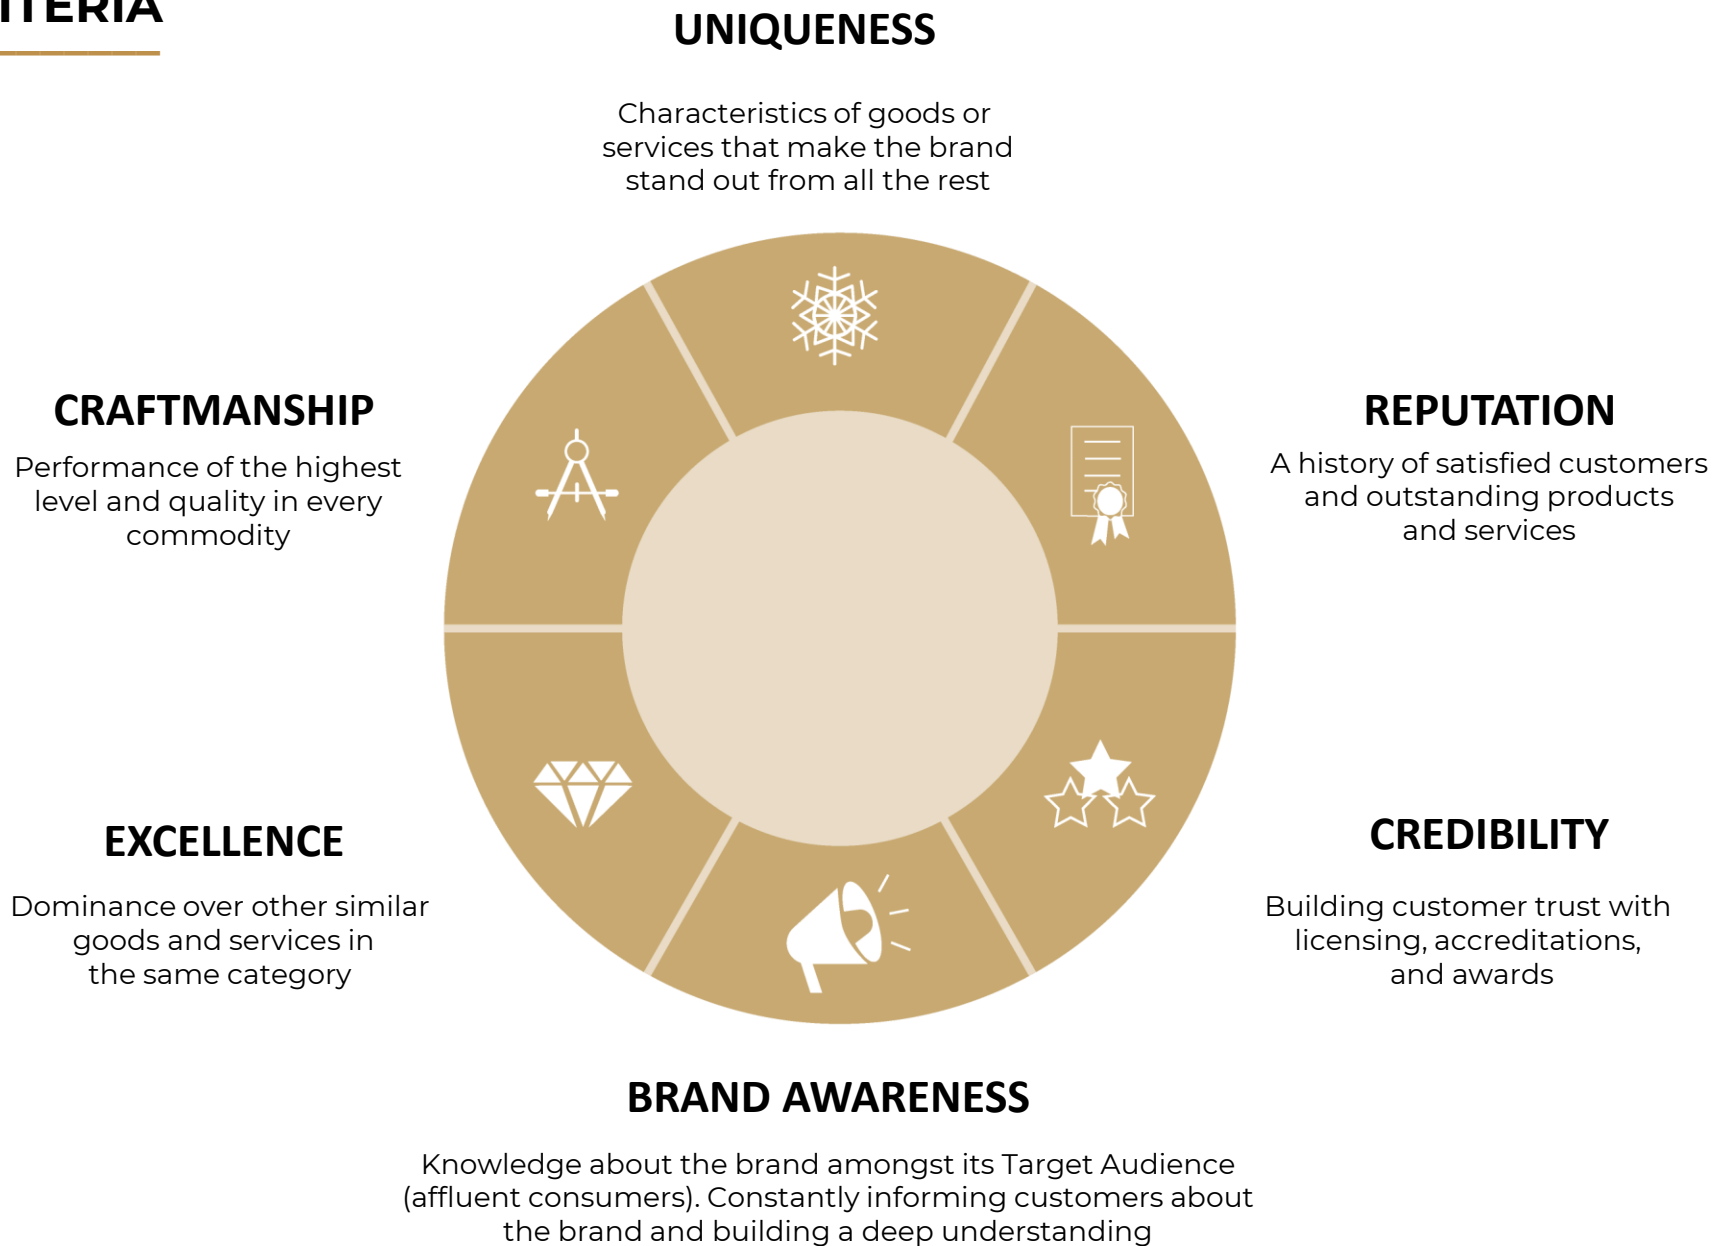

The Luxury Lifestyle Awards team's in-depth knowledge and years of industry experience have allowed them to evaluate coverage of such topics as high-end real estate, interior design, hospitality, travel, destinations, restaurants, culinary, cars, yachts, spirits, jewelry, watches, fashion, and other attributes of luxury living in various media. The research into the world's best luxury media required a careful examination of a vast number of media resources and their evaluation according to a number of criteria, including the reliability of published information, readership, audience coverage, design, customization of articles, quality of printing, circulation, publication geography, social media of each brand, marketing procedure, and feedback from clients.
